

I have supported K-Love radio for several years, and feel that it provides information, and music that is not available through other stations. It is good for kids to have access to a station that provides an uplifting message, and music that can support their moral development. I do not feel that other stations and more economically biased stations can provide the same service. I feel the service K-Love provides would leave a large gap in many listeners lives if it did not continue to be available. Thank you . Keith Ferguson
